OG West Penn has not been located in Washington, PA for several years. Following changes to the property during the COVID period, most events have been held in Michigan. As there is no bylaw requiring events to be held at a specific location, we have selected a lovely venue that is suitable for this event and convenient for both Sean and the participants who will be attending.

Our current issue is that the system will not allow submission with only 21 days' notice. We are requesting your assistance in obtaining the necessary authorization to proceed within that time frame.

Please let us know the appropriate next steps needed to move this request forward.

We appreciate your time and assistance and look forward to your guidance.

Thank you,

Staci

I agree with you that the portal system is difficult - I can only approve an EAF via the portal I have no problem approving the event - you may proceed

to Mark, Vadi...

I have a request for a helper seminar/classification on June 28th which is 21 days from now. It won't go thru the system because it's not more than 21 days.

It would be with OG West Penn at 1 Whitebarn Rd, New Albany, OH with Sean as the teaching helper.

I can send the flyers out today if you can get this approved.

Thank you so much for your assistance with this. It's so appreciated.
